3 次の各問いに答えなさい。

(A) 次の会話文を読んで、問いに答えなさい。

Staff: Welcome to Cute Kitty Café! I'm Alice.

Tom: No, I haven't. This is my first time here.

Staff: Okay. First, I'll show you to your table in the play area. Please come with me.

Tom: There are so many cute cats. Look at that black and white one! It's so pretty.

Staff: Yes, this café has the best cats in the city. Here is your table.

②[ you / me / the café rules / tell / let ].

Tom: Yes, please.

Staff: First, you mustn't pick up any of the cats by yourself. If you want to pick up a cat, please ask the staff.

Tom: I see. Aren't the cats friendly?

Staff:  Most of our cats are very friendly. But some of them are shy. They may get scared.

Tom: Okay, I understand. May I touch the cats?

Staff: That's a very good question. If a cat comes to you, you can touch it. But if it walks away, please don't follow it.

Tom: I see.

Staff: You can use cat toys to play with it from your seat. However, you should not walk around when you use cat toys. You can freely use our café's cat toys to play with the cats.

Tom:

Staff: No, you don't have to. You may bring your own. First, please show the toys to the staff before you use them. A few cats don't like some kinds of toys.

Tom: ⑤[ other / are / rules / any / there ]?

Staff: Yes, just one more. You have to close the door when you leave.

Tom: Is that all?

Staff: That's all! Enjoy your time at Cute Kitty Café!

“Never limit yourself.” Mae Jemison said these words to encourage others to follow their dreams. Mae is a scientist, a doctor, and the first African American woman to go into space. She worked hard to make her dreams come true even when things were difficult.

Mae was born in 1956 in Alabama, USA, and she was the youngest of three children. Her father worked as a handyman and her mother taught math and English at an elementary school. When Mae was three, her family moved to Chicago, Illinois. There, she was introduced to science by her uncle. She loved it so much that she decided to become a scientist when she grew up. In addition to science, she loved the TV show Star Trek and became interested in going to space as an astronaut. She also enjoyed reading in the library for hours.

One day, Mae said to her teacher, “I want to be a scientist in the future.” Then, Mae’s teacher asked, “You mean you want to be a nurse, right?” The teacher thought that women and African American people did not have many chances to do scientific jobs. However, Mae did what she wanted to do, and she studied science.

Mae worked hard in school, but her teachers did not support her very much. They didn’t think she would be successful. However, her parents always encouraged her to do her best. In 1973, when Mae was 16 years old, she received a scholarship to attend Stanford University, one of the best universities in the United States. But, at university, Mae experienced discrimination from her classmates, and even from teachers, because she was an African American. But this made her want to do her best even more.

After four years, Mae graduated from Stanford University, but this was not enough for her. After Stanford, she went on to Cornell University to study medicine. While at Cornell, she traveled to different countries to help refugees. After four years, she started working as a doctor. She also joined the United States Peace Corps to work as a volunteer doctor.

In 1985, Mae returned to the US and decided to follow her other dream to become an astronaut. She applied for the NASA astronaut training program, and was chosen from a group of around two thousand people. Her space mission took place in 1992 on the Space Shuttle Endeavour. Mae stayed in space for 190 hours 30 minutes 23 seconds. Mae’s trip to space was a significant achievement for herself, for women, and for people of color who needed more support for careers in science.

Mae said, “Never limit yourself because of others’ limited imagination; never limit others because of your own limited imagination.” She made her dreams come true even though she had many difficulties. Listen to your heart and find what you really want to do. Do your best to make your dreams come true even when others say, “It’s impossible.” Your future is limitless, so reach for the stars!

(注) in addition to~ ~に加えて      scholarship 奨学金      refugees 難民  
 apply for~ ~に申し込む      mission 任務      take place 行われる  
 significant 素晴らしい      achievement 功績      difficulties 困難
